A New Dimension in Non-Surgical Technology

A revolution in the non-surgical aesthetic skincare market...

Rotational  
Diamond Peel  
Microdermabrasion

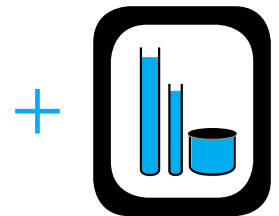

Radio  
Frequency

Mesotherapy

LED

3D-skintech  
peels and clinical  
skincare

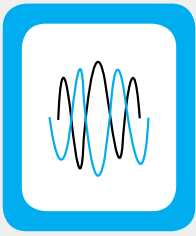

skintech is set to create a revolution in the non-surgical Aesthetic skincare market. What's different is that no other system currently offers the individual stand alone quality of each technology in this superb multi platform device. The 3D-skintech not only offers a comprehensive range of **combination treatments** for anti-ageing, pigmentation and acne but can also be used for **dedicated services** such as microdermabrasion, mesotherapy, skin tightening and LED. As a further alternative each technology can act as an **accent service** to any treatment allowing you to focus on areas of concern.

Used in conjunction with our unique technology or as a stand alone service we have a dedicated range of skin peels and cosmeceutical skincare products that ensures a comprehensive and prescriptive approach to your clients needs covering;

- Preventative approach (Cosmeceutical skincare with actives for the effective treatment of acne/pigmentation and anti-ageing)
- Preventative curative approach (Peels combined with cosmeceutical skincare to intensify the treatments above)
- Curative approach (Combines multiple technologies to accelerate the effects on anti-ageing, acne and pigmentation)
- Curative + approach (The ultimate result driven approach which combines multiple technologies in conjunction with the relevant peels and skincare)

Our unique package will ensure that your clinic will be able to profit from the endless opportunities that our 3D-skintech technology and products present.

**Its all you will ever need!**

## Radio Frequency

The Focus Fractional RF energy penetrates the skin layers to selectively heat the skin tissue and the extra cellular matrix where the collagen fibres are embedded. The local heating causes an immediate contraction of collagen fibres, and at the same time increases the metabolism of the fibroblasts thereby accelerating the production of new collagen and elastin fibres.

The concentration of collagen fibres and the regeneration of the collagen and elastin deposits, tighten the skin layers creating a smoother, healthier and younger looking skin.

## No needle Mesootherapy

Hailed as the next generation following dermal rollers electro mesootherapy breaks down the cell wall to enable ingredients to be delivered into the cell where they are needed most.

## Full canopy LED

Full canopy LED ensures rapid and effective treatment unlike a few LED lights on a handset which cannot deliver an effective outcome. Each colour has a specific weight, temperature, wavelength, density and energy level to stimulate or minimize various metabolic functions. The different colours give off different frequencies which have varied effects on physical and psychological functions.

## Rotational Diamond Peel Microdermabrasion

This latest technology combines the latest in adjustable, rotational control with variable vacuum to ensure a precise yet comfortable service without the downtime issues commonly associated with crystal microdermabrasion.

### LED

- Full canopy
- Only ten minute treatment time
- Four colours
- No tissue damage

### Rotational Microdermabrasion

- Crystal free
- Includes vacuum stimulation
- Blockage free
- Low treatment cost
- Fully adjustable
- Four grades of crystal tip

### Mesootherapy

- No needles
- No down time
- No pain
- Next generation technology

### Radio Frequency

- Latest Tri-polar technology
- No pain
- Deep penetration
- Visible results

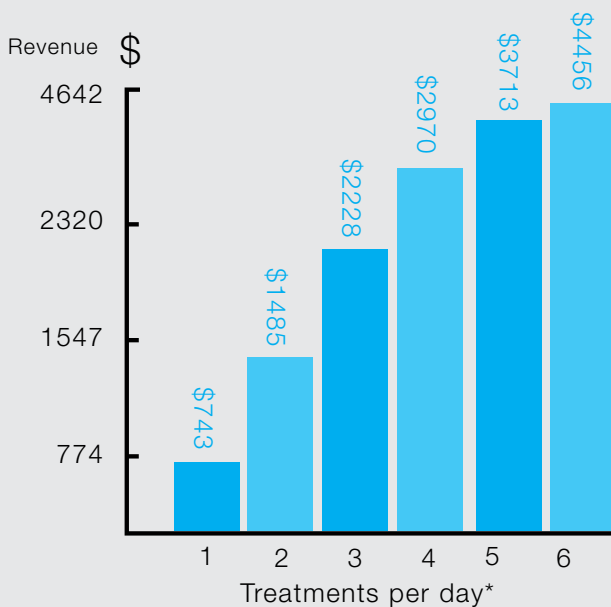

# You will profit from 3D-skintechs unique approach and result driven treatments from day 1

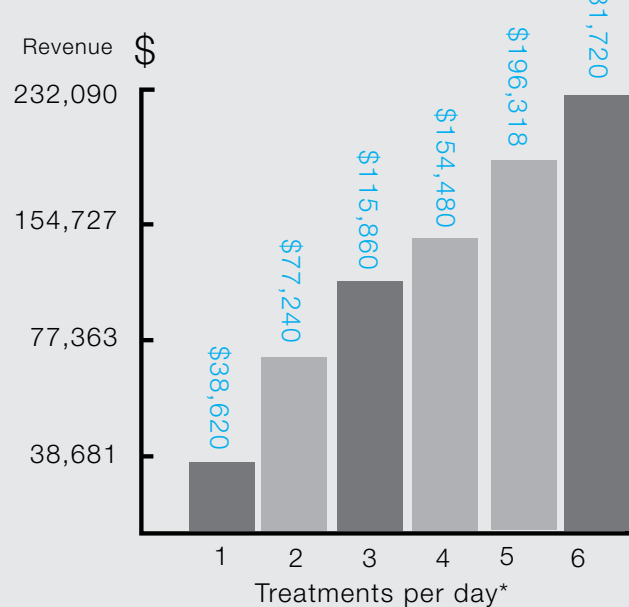

Because you can utilise our system in so many different ways we ensure that you generate income from the multiple applications from day 1. These prescriptive result driven treatments will ensure that you maintain the upper hand in your profession where aesthetic treatments remain one of the largest growth sectors in our industry.

## INCREASE YOUR REVENUE

### WEEKLY REVENUE

### YEARLY REVENUE

Treatments based on a price of \$125 (minimum per treatment)

## TECHNICAL SPECIFICATIONS

### Rotational Dermabrasion

Vacuum intensity	Max 650mmHg / 14.8psi
Diamond heads	9 types
Rotation Speed	270°/s, 480°/s, 690°/s

### Multi-Polar RF

RF Frequency	10Mhz
RF Max Output	50W
Output Mode	Pulse/Continuous

### Mesotherapy

Max Voltage	32V
Output Modes	7 Types

### LED

Color	Red, Blue, Yellow, Green
Frequency	10-100Hz
Output wave	144/cm2

### General

Power Supply	220V-240V, 50/60Hz
Fuse	2 fuses 5x20 – 250V – 5A F
Max actual power noise	3W
Elastic Working pressure	0.6 Kpa/cm <sup>2</sup> per 40x10 E3 cycles/sec.
Treatment Time	From 5 to 30 minutes
Programs	Personalized regulations
Parameters Setting	time, power
Commands	Selection through touch-buttons
Visualization	Graphic Display 10" touch screen
Operating Temperature	From 10 to 35
Operation Relative Humidity	From 30 to 75%
Operation pressure	500 Mbar to 1060 Mbar
Size of machine	38x48x58cm
Net Weight	17Kgs
Warranty	12 months
Mark	CE
