# OILY/ACNEIC Clear Skin Facial Level 1 & 2

This facial is ideal for a slightly oily acneic patient (with no open lesions). It is highly recommended that Beta Hydroxy Acid peels and take home products be utilised in addition to the level 2 facial to help the client control, maintain, and prevent acneic conditions and slow sebum production. It is also advised that the therapist thoroughly review the side effects and initial reaction to treatment such as purging, temporary dry skin and possible irritation.

Steaming, extractions, peels, microdermabrasion, electrophoresis or LED can be inserted during the facial as per your professional training. Take home products will mimic those used in the facial and can be customised to suit your clients needs.

## LEVEL 1:

1. **Cleanse** - Clear Skin Face wash
2. **Tone** - Clear skin toner
3. **Exfoliate** - Time defence lightening exfoliator
